If no Early Redemption has occurred, the Redemption at maturity will depend on the performance of the Underlying with the Worst Performance. If no Barrier Event has occurred (European observation), the investor will receive a Cash Settlement equal to the Nominal Amount. Otherwise, the investor will receive a Cash Settlement calculated as the Nominal Amount multiplied by the Performance of the Underlying with the Worst Performance, as described under "Redemption".

Investors must be prepared to hold the Securities until the Redemption Date.

## Illiquidity Risk

One or, if applicable, more of the Underlyings might be or become illiquid over the life time of the Product.
