PRODUCT DESCRIPTION

Product Description	This Product offers the investor a pre-defined guaranteed Coupon Amount on the relevant Coupon Payment Date(s). In addition, the Certificates can also be redeemed early if the relevant conditions are met on any of the pre-defined Early Redemption Observation Dates. If no Early Redemption has occurred, the Redemption at maturity will depend on the performance of the Underlying with the Worst Performance. If the Final Fixing Level of the Underlying with the Worst Performance is at or above the Strike Level, the investor will receive a Cash Settlement equal to the Nominal Amount. Otherwise, the investor will receive a Cash Settlement calculated as the Nominal Amount multiplied by the Performance of the Underlying with the Worst Performance, as described under "Redemption".
Market expectation of the Investor	The investor expects a moderate rather than large rise in the Underlying(s). The investor expects that the Underlying with Worst Performance will close higher than the Strike Level on the Final Fixing Date of the Product.
