### PRODUCT DESCRIPTION

Product Description	This Product offers the investor a pre-defined conditional Coupon Amount with memory effect on the relevant Coupon Payment Date(s). In addition, the Certificates can also be redeemed early if the relevant conditions are met on any of the pre-defined Early Redemption Observation Dates. If no Early Redemption has occurred, the Redemption at maturity will depend on the performance of the Underlying with the Worst Performance. If the Final Fixing Level of the Underlying with the Worst Performance is at or above the Strike Level, the investor will receive a Cash Settlement equal to the Nominal Amount. Otherwise, the investor will receive a Cash Settlement calculated as the Nominal Amount multiplied by the Performance of the Underlying with the Worst Performance, as described under "Redemption".
Market expectation of the Investor	The investor expects a moderate rather than large rise in the Underlying(s). The investor expects that the Underlying with Worst Performance will close higher than the Strike Level on the Final Fixing Date of the Product.

## Market Risks

The general market performance of securities is dependent, in particular, on the development of the capital markets which, for their part, are influenced by the general global economic situation as well as by the economic and political framework conditions in the respective countries (so-called market risk). Changes to market prices such as interest rates, commodity prices or corresponding volatilities may have a negative effect on the valuation of the Underlying(s) or the Product. There is also the risk of market disruptions (such as trading or stock market interruptions or discontinuation of trading) or other unforeseeable occurrences concerning the respective Underlyings and/ or their stock exchanges or markets taking place during the term or upon maturity of the Products. Such occurrences can have an effect on the time of redemption and/ or on the value of the Products.

## No Dividend Payment

This Product does not confer any claim to receive rights and/ or payments of the Underlying, such as dividend payments, unless explicitly stated herein, and therefore, without prejudice to any coupon or dividend payments provided for in this Termsheet, does not yield any current income. This means that potential losses in value of the Product cannot be compensated by other income.

## Credit Risk of Issuer

Investors bear the credit risk of the Issuer of the Product. The value of the Products is dependent not only on the Underlyings, but also on the creditworthiness of the Issuer, which may change over the term of the Product.

The Products constitute unsubordinated and unsecured obligations of the Issuer and rank pari passu with each and all other current and future unsubordinated and unsecured obligations of the Issuer. The insolvency of the Issuer may lead to a partial or total loss of the invested capital.

## Secondary Market

The Issuer and/ or the Lead Manager or any third party appointed by the Issuer, as applicable, intends, under normal market conditions, to provide bid and offer prices for the Products on a regular basis (if specified in the section "General Information"). However, the Issuer and/ or the Lead Manager, as applicable, make no firm commitment to provide liquidity by means of bid and offer prices for the Products, and assume no legal obligation to quote any such prices or with respect to the level or determination of such prices. In special market situations, where the Issuer and/ or the Lead Manager is/ are unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks of the Issuer and/ or the Lead Manager. Investors must be prepared to hold the Securities until the Redemption Date.

## Illiquidity Risk

One or, if applicable, more of the Underlyings might be or become illiquid over the life time of the Product.

Illiquidity of an Underlying might lead to larger bid/ offer spreads of the Product and/ or to an extended time period for buying and/ or selling the Underlying respective to acquire, unwind or dispose of the hedging transaction(s) or asset(s) or to realise, recover or remit the proceeds of such hedging transaction(s) or asset(s) which might implicate a postponed redemption or delivery and/ or a modified redemption amount, as reasonably determined by the Calculation Agent.

# ADDITIONAL INFORMATION / DISCLAIMERS

The Issuer and/ or the Lead Manager and/ or any third party appointed by them, as the case may be, may from time to time, as principal or agent, have positions in, or may buy or sell, or make a market as well as be active on both sides of the market at the same time in any securities, currencies, financial instruments or other assets underlying the products to which this document relates. The Issuer's and/ or Lead Manager's and/ or the appointed third party's trading and/ or hedging activities related to this transaction may have an impact on the price of the Underlying and may affect the likelihood that any relevant threshold (e.g. a Barrier Level/Price), if any, is reached.

## Remunerations to Third Parties

Depending on the circumstances the Issuer and/ or Lead Manager may sell this Product to financial institutions or intermediaries at a discount to the Issue Price or reimburse a certain amount to such financial institutions or intermediaries (reference is made to section "General Information" herein). For open-end products such fees will be split linearly over ten years.

In addition, for certain services rendered by distribution partners and to increase quality and services relating to the Products, the Issuer and/ or Lead Manager may from time to time pay trailer fees to such third parties.

Further information is available on request.

## Payment of a Coupon

If the Product stipulates the payment of a coupon, the investor is only entitled to receive the respective coupon payment, if he has purchased/not sold the Product at the latest on the business day preceding the respective Coupon Payment Date for the then prevailing price.
