PRODUCT DESCRIPTION

Product Description	This Product offers the investor a pre-defined conditional Coupon Amount with memory effect on the relevant Coupon Payment Date(s). In addition, the Certificates can also be redeemed early if the relevant conditions are met on any of the pre-defined Early Redemption Observation Dates. If no Early Redemption has occurred, the Redemption at maturity will depend on the performance of the Underlying with the Worst Performance. If no Barrier Event has occurred (European observation), the investor will receive a Cash Settlement equal to the Nominal Amount. Otherwise, the investor will receive a Cash Settlement calculated as the Nominal Amount multiplied by the Performance of the Underlying with the Worst Performance, as described under "Redemption".
Market expectation of the Investor	The investor expects a sideways or moderate rather than large rise in the Underlying(s). The investor expects that no Barrier Event will occur.
